

Mererani Tanzanite Zone Assessment

Mineral: Tanzanite

Region: Manyara

Generated: 03 July 2026 · Terra Meta Mineral Intelligence Platform

Overview

Gemstone prospectivity around the Mererani tanzanite mining district.

Executive summary

The Mererani block is the world's sole commercial tanzanite source. This report evaluates structural controls, depth extensions, and adjacent under-licensed ground for blue zoisite potential.

Key findings

- Primary control is NE-trending foliation parallel to known pay shoots.
- Depth modeling suggests viable extensions below 400 m in two blocks.
- Adjacent licenses with similar host chemistry remain under-sampled.

This report is part of the Terra Meta prospectivity catalog. Data and interpretations support exploration planning and due diligence; verify critical decisions with licensed geological survey and field work.
